The revision history section provides a means for readers to easily navigate to the places where updates have occurred from prior years. Significant changes and updates are indicated through **RED underlined** text for additions and **red text with strikethroughs** for deletions. Minor changes- such as typos, formatting and grammar corrections - are not marked.

Date	Effective	Description
		Updated for the 2024-2025 School Year
		Added Federal Graduation Student Group Criteria
		Added 2 charts for English Learners (EL) to help with clarification on when and where an EL student is accountable
9/27/2024	FY24	Added Clarification information on English Learner inclusions for Gap Closing measures
7/09/2024	FY24	Updated definition of Modified Full Academic Year and Appendix A
6/5/2024	FY24	Added Enrolled Student definition and updated Appendix A to refer to the FTE Report Explanation to determine EMIS coding for enrolled student
6/5/2024	FY24	Added Instructional Services definition
6/5/2024	FY24	Updated EMIS coding for enrolled students to reflect the FTE funded students from FTE Detail AND enrolled CTE students to reflect the CTE FTE funded students

[OHIO REVISED CODE](#) and [OHIO ADMINISTRATIVE CODE](#) require districts to report data to EMIS and to verify and approve all EMIS data. Data should be reviewed and verified prior to the close of the [DIFFERENT DATA COLLECTIONS](#). This verification should include all relevant reports, including those in the Secure Data Center (SDC).

The Secure Data Center (SDC) is an interactive tool that allows districts to review data well before it is final and the Report Cards are released. ***The SDC is the main resource districts should use to review Report Card Data but not inclusive please verify all relevant reports from EMIS.*** The [EMIS Validation and Report Explanations](#) webpage lists current Level 1 and 2 report explanations as well as a list of [General Issues Reports](#) that should be used to validate data. Another resource to validate data for students that cross LEAs is the [Ohio District Data Exchange \(ODDEX\)](#).

Introduction

This comprehensive educational accountability guide plays a crucial role in addressing the fundamental question: “Does this student count on the report card?”. It serves as a valuable roadmap for educators, administrators, and policymakers, guiding them through the intricate processes that ensure accurate representation of students in our state’s accountability calculations.

This guide includes the following elements:

DEFINITIONS: This guide provides clear and precise definitions related to educational outcomes. These definitions help establish a common understanding among stakeholders, ensuring consistency in how student performance is assessed.

BUSINESS RULES: It outlines specific rules and guidelines that govern the inclusion or exclusion of student data. These rules help maintain fairness and accuracy in the accountability system.

INCLUSION AND EXCLUSION CRITERIA: Educators and administrators can refer to this guide to determine which students should be included in the report card calculations. It clarifies scenarios where certain students may be excluded due to specific circumstances.

TRANSPARENCY AND TRUST: By providing transparency into the measurement of educational outcomes, this guide fosters trust in the system. When stakeholders understand the processes and criteria, they are more likely to have confidence in the reported results.

IMPROVING EDUCATIONAL OUTCOMES: Ultimately, the purpose of this guide extends beyond data collection. It aims to leverage accurate information to drive positive educational outcomes. By analyzing the data, identifying trends, and making informed decisions, policymakers and educators can enhance the learning experience for all students.

Remember, an accountable and transparent system benefits everyone involved—students, educators, and the community at large.

Data Reporting

The flow of data starts with the Student Information System (SIS) to the Department through multiple layers and checks, ensuring accurate and reliable data reporting.

- **DATA ENTERED INTO STUDENT INFORMATION SYSTEM (SIS):**
 - Local education authorities (LEAs) enter the data into their chosen Student Information System (SIS).

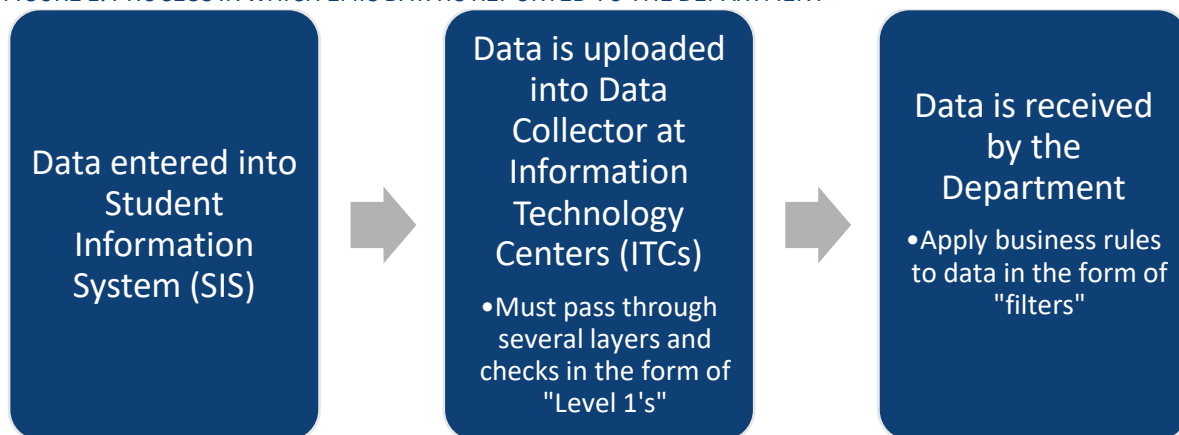

- **DATA IS UPLOADED INTO DATA COLLECTOR AT INFORMATION TECHNOLOGY CENTERS (ITCS):**
 - The LEAs upload the data into the Data Collector through [EMIS Records](#). The Data Collector, where these data undergo initial checks referred to as 'Level 1's'. The Data Collector is hosted at the ITC.
- **DATA IS RECEIVED BY THE DEPARTMENT:**
 - The Department applies business rules to the incoming data using 'filters' to determine which students are included in various calculations at the building, district, or state level.

The purpose of these filters is to determine:

- Whether students are included at the building, district, or state level
- Which students should be included in each calculation and total

These steps help ensure the integrity and accuracy of data as it moves through the reporting process.

Definitions/Student Populations

TRADITIONAL PUBLIC DISTRICT/SCHOOL

In Ohio, public school districts are funded by public tax dollars. All school-age children in Ohio are entitled to attend the public schools in the district of their residence without charge.

These districts serve as the primary educational entities within the state, providing education to students from kindergarten through high school. Different types of school districts in Ohio include:

- **City School Districts:** These districts serve urban areas and are typically located within city boundaries.
- **Exempted Village School Districts:** These districts are exempted from county boards of education. They operate independently and have their own governance structure.

- **Local School Districts:** Local school districts remain under county school board supervision. They serve specific geographic areas and provide education to students within those boundaries.

[Ohio Revised Code 3302.03](#) requires the Department to create a report card for each school district and building. Report cards for districts and schools are known as **Traditional Report Cards**.

STEM DISTRICT/SCHOOL

STEM (Science, Technology, Engineering, and Mathematics) education in Ohio is a learner-centered approach that provides students with a problem-based, transdisciplinary, and personalized learning experience. It integrates foundational practices and skills from core disciplines such as **Science, Technology, Engineering, the Arts and Humanities, and Mathematics**. Here are some key points about STEM education in Ohio:

- **Holistic Learning:** STEM education challenges students to think critically, design solutions, and make evidence-based explanations through real-world, authentic learning experiences. It goes beyond traditional subject boundaries and encourages cross-disciplinary thinking.
- **Pathways to Success:** STEM education creates meaningful pathways to post-secondary success for K-12 students. By fostering partnerships and career exploration with community entities, it prepares students for future endeavors.
- **Inclusivity and Relevance:** STEM Education aims to engage students at every level, accelerate learning through innovative approaches, and provide culturally responsive experiences. It encourages the development of life skills such as empathy, collaboration, communication, and critical thinking.
- **STEM and STEAM Designation:** The [Ohio STEM and STEAM School Designation](#) recognizes schools that exemplify STEM and STEAM education. These designated schools employ highly effective teachers, have well-established community partnerships, and prepare students for post-high school success.

In Ohio, there are **STEM and STEAM Designated Schools** that meet specific criteria outlined by the [Ohio Quality Model for STEM and STEAM Schools](#). The goal is to foster intellectual, entrepreneurial, and technical talent through design thinking, contributing to Ohio's future economic growth and prosperity.

[Ohio Revised Code 3302.03](#) requires the Department to create a report card for each school district and each school building, including STEM schools. STEM schools receive a **Traditional Report Card**.

COMMUNITY SCHOOLS

Community Schools are public schools that offer additional choices for families seeking non-traditional K-12 educational settings for their children. A community school can be online, or site based. Listed below are some key characteristics of community schools:

- Nature and Funding:
 - Community schools are public, nonprofit, and nonreligious institutions.

- They receive state and federal funding.
- These schools operate independently of traditional school districts.
- Independence and Choice:
 - Community schools are independent of any school district.
 - Families can choose community schools as an alternative to traditional public schools.
 - They provide tuition-free education for Ohio students.
- Sponsors and Contracts:
 - Sponsors play a crucial role in community schools.
 - They ensure that schools adhere to their contracts.
 - Sponsors make important decisions, including whether to renew contracts with community schools.
- Types of Community Schools:
 - **Start-up community schools:** Newly established schools.
 - **Conversion community schools:** Previously Public schools and public local educational agencies that are converted, in part or in whole, into community schools.
- Empowering Parents:
 - Ohio parents have the power to choose the best educational option for their child(ren).
 - Community schools provide a tailored education experience that recognizes that one size doesn't fit all.

[Ohio Revised Code 3302.03](#) requires the Department to create a report card for each school district and each school building, including community schools. Community schools receive a **Traditional Report Card**.

DROPOUT PREVENTION AND RECOVERY COMMUNITY SCHOOL

In accordance with [Ohio Administrative Code \(OAC\) 3301-102-10](#), a community school is considered a dropout prevention and recovery school if any of the following applies:

- The community school operates a drug recovery program in cooperation with a court.
- OR**
- The community school serves most of the enrolled students through a dropout prevention and recovery program operated by the school that meets the following criteria:
 - The program only serves students older than sixteen years of age and less than twenty-one years.
 - At the time of initial enrollment, students are at least one grade level behind their cohort age groups or experience crises that significantly interfere with their academic progress. These conditions are not mutually exclusive. They do not allow students to continue their education in traditional programs.
 - The program requires students to attain at least the applicable score designated for each of the assessments prescribed under division (B)(1) of section [3301.0710](#) of the Revised Code or, to the extent prescribed by rule of

the state board of education under division (B)(2) or (D)(5) of section [3301.0712](#) of the Revised Code.

- The program develops an individual career plan that specifies the student's matriculating to a two-year degree program, acquiring a business and industry credential, or entering an apprenticeship.
- The program provides counseling and support related to the plan developed under division (A)(4) of section [3314.26](#) of the Revised Code during the remainder of the student's high school experience.
- The program's instructional plan demonstrates how the academic content standards adopted by the state board of education under section [3301.079](#) of the Revised Code are taught and assessed.

OR

- The community school is a conversion community school whose sponsoring district has received a waiver from having the school's academic data rolled up into the district's local report card. Because the school primarily enrolls students between sixteen and twenty-two years of age who dropped out of high school or are at risk of dropping out due to poor attendance, disciplinary problems, or suspensions.

[Ohio Revised Code 3314.017](#) requires the Department to create a report card for each Dropout Prevention and Recovery School. The Department refers to these report cards as **Dropout Prevention and Recovery Community School Report Cards (DPR)**.

CAREER TECHNICAL PLANNING DISTRICT

In Ohio, a Career-Technical Planning District (CTPD) is a local education agency configuration that meets the minimum requirements of law and subsequent standards to offer state-sanctioned career-technical programming. These districts play a crucial role in providing career and technical education (CTE) to students within their member districts. CTPDs serve as key partners in meeting Ohio's vision for each student by focusing on career readiness and equitable outcomes for all students. They handle administrative duties related to CTE programs and ensure that students receive coherent and rigorous content aligned with academic standards and relevant technical knowledge and skills. CTPDs collaborate with schools, educators, and industry partners to prepare students for further education and careers in current or emerging professions.

[Ohio Revised Code 3302.033](#) requires the Department to create a report card for each Career-Technical Planning District. The Department refers to these report cards as **Career Technical Planning District Report Cards (CTPD)**.

ENROLLED STUDENT

A student who generates Base FTE and that meets the requirements defined in [ORC 3317.03](#).

FULL ACADEMIC YEAR

When a student is continuously enrolled in the building/district from the Friday of the first full week of October (used to be October Count Week) through March 31.

NOTE: if the school year ends prior to the relevant *Majority of Attendance* date, then the *Majority of Attendance* end date is the last day of the school year. In addition, if a school year starts after the Friday of the first full week of October, the *Majority of Attendance* start date is the first day the school is open.

MAJORITY OF ATTENDANCE IRN

The Majority of Attendance IRN definition has the same definition as the *Full Academic Year*. The Department uses the *Majority of Attendance Element (FN220)* to determine if the student meets the *Full Academic Year* at the building/district level. The following steps are taken to determine if the student meets the *Full Academic Year* criteria at the building level, and then at the district level:

- If the *Majority of Attendance Element (FN220)* is a building within the district, then the student meets the *Full Academic Year* criteria at the building level.
- If the *Majority of Attendance Element (FN220)* is the district IRN, then the student meets the *Full Academic Year* criteria at the district level, but not at a building level.
- If the *Majority of Attendance Element (FN220)* is = *****, then the student does not meet *Full Academic Year* criteria at either the building or district level for the reporting district.

ACCOUNTABILITY IRN

In the *Accountability IRN Element (FN140)*, a district may enter the IRN of a specific building within their district to be accountable for a specific student's performance results when one of

the following criteria are true:

- The student was enrolled in a building for a *Full Academic Year*.

AND

- The student was simultaneously enrolled in two or more buildings in the district.

OR

- The student participates in a special program in another building other than the building that is in the *Majority of Attendance Element (FN220)*. An example of this would be a student with a disability who attends a different building because the special program that he/she attends is housed in that building. If the district does not enter an IRN in the *Accountability IRN Element (FN140)*, the student would be included in the results of the building where that special education program is located. However, the district may enter the IRN of the building that the student would otherwise attend if the student were not in that special program (the resident building IRN) and in such cases, the student would then count at the resident building.

NOTE: It is not necessary for districts to manually enter the *Accountability IRN* if the student is not enrolled in a building within the district for a *Full Academic Year* but was enrolled in the district. ONLY a building IRN of a building within the district can be entered into the *Accountability IRN*. An IRN of another district should never be entered.

USE OF ACCOUNTABILITY IRN

If the *Full Academic Year* criteria are met at the building level, and the district has entered another building IRN in the *Accountability IRN Element (FN140)*, then the Department will use the *Accountability IRN Element (FN140)* to determine in which building the student's attendance data and test results will be included (this does not apply to the participation rate; for this calculation students always are attributed to the school where they are educated during the test window).

REPORTING IRN

The *Attending Building IRN Element (FS160)* reported by school districts on the *Student Standing (FS) Record* is considered the *Reporting IRN*.

NOTE:

- If a city, local or exempted village district is instructing and reporting the student, then this IRN must belong to a public-school building located within the district.
 - When a district is not instructing the student, the building IRN where the student would have been enrolled in the district is reported.
 - EXCEPT in cases in which “How Received” is a student:
 - Attending Nonpublic School
 - Receiving non-instructional, supplementary, or related services
 - Court Placed excluding foster care
 - Non-court ordered placement in institutions
 - Pre-school evaluated only.
- NOTE:** In these cases, the district's IRN can be used as the *Attending Building IRN Element (FN160)* value.
- For ESC's reporting students, the IRN of the ESC is to be used in the *Attending Building IRN Element (FN160)*.

EXTENDED FULL ACADEMIC YEAR

Student is continuously enrolled in the building/district from the Friday of the first full week of October (formerly October Count Week) through March 31 and stays enrolled in the school or district through the end of the school year. This ensures the school or district has the full opportunity to serve the students and prepare them to meet a pathway to promotion.

MODIFIED FULL ACADEMIC YEAR

Student is continuously enrolled in the building/district from the Friday of the first full week of October (formerly October Count Week) through March 31 of the **prior year** and continue enrollment into the current year to be required to take the reading diagnostic at the same school or district. This ensures the school has the full opportunity to provide the supports needed to help struggling readers become on track with their reading.

CAREER TECHNICAL EDUCATION

Career and technical education (CTE) describe organized educational activities that offer a sequence of courses:

- To provide individuals with coherent and rigorous content aligned with challenging academic standards. Content includes relevant technical knowledge and skills to prepare for further education and careers in current or emerging professions
- To provide technical skill proficiency, an industry-recognized credential, a certificate, or an associate degree; and
- May include prerequisite courses (other than a remedial course) to meet the requirements of this subparagraph; and
- Include competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of an industry, including entrepreneurship, of an individual.

CAREER TECHNICAL EDUCATION WORKFORCE DEVELOPMENT PROGRAM

The definition of CTE Programs is embodied in the definition of career and technical education in the *Strengthening Career and Technical Education for the 21st Century Act* ([Perkins V](#)). A workforce development program of study at the secondary level requires local recipients to:

- Offer a minimum of four secondary career-technical courses.
- Identify at least one opportunity for secondary students to receive articulated or transcribed college credit.
- Identify the appropriate academic courses needed for success in the career pathway.
- Specify an example set of aligned postsecondary courses in the pathway.

CAREER TECHNICAL EDUCATION WORKFORCE DEVELOPMENT COURSE

A workforce development course addresses some of the content standards of a workforce development program and in general contains content provided in a shorter time period (e.g., 60-280 hours). To be funded as a CTE workforce development course, it must be aligned to a state-approved CTE program of concentration via an approved CTE-26 application. Courses are limited to those with curriculum codes indicating the course is a CTE Non-Workforce Development based anchor course, CTE Workforce Development placement anchor course, CTE Workforce Development based anchor course, or CTE College Credit Plus course.

GRADUATE

A student who has successfully completed graduation requirements and finished formal secondary education.

HIGH SCHOOL DROPOUTS

Students reported with a *Withdrawal Reason Element (FS100) = 7x* are considered dropouts. Those withdrawal reasons include:

- Withdrew Due to Truancy/Nonattendance

- Pursued Employment (Work Permit Superintendent Approval on file)
- Over 18 Years of Age
- Moved Not known to be continuing
- Student Completed Course Requirements but did NOT pass the appropriate statewide assessments required for graduation.

In the case of a student on an IEP who has been excused from the individual consequences of the statewide assessments, using this code indicates:

- The student completed course requirements but did not take the appropriate statewide assessments required for graduation.
- Non-Attendance According to the 72-Hour Rule
- Withdrew due to ORC §3314.26 (non-tested)
- Withdrew due to ORC §3314.261(C) (non-attendance at internet-based community schools), or
- Student eligibility changed; district does not know where education will be continued.

STUDENTS REPORTED IN ERROR

Students reported with a *Withdrawal Reason Element (FS100)*, indicates the student was reported in error by the school or district. These students never should have been reported.

If the student was not enrolled in the district in the prior year and—despite having completed enrollment paperwork—has not attended at all in the current year (no Admission Date to report), then *Withdrawal Reason Element (FS100) = 81* is reported in the current year. This indicates there was no enrollment for the student. Note that an 81-withdrawal record for this student is only required if the student has been reported to [EMIS](#) via an FS Record showing an enrollment. If an 81 withdrawal is reported and the student enrolls later and attends the district in the same school year, the 81 records should no longer be reported.

TRANSFERS IN

These are students who transfer to an Ohio public school during their high school years (Grades 9-12). When a student enters the public school system for the first time, grade placement is a local decision. Students are placed in the appropriate cohort based on the *Fiscal Year that Student Began Ninth Grade Element (FN110)* reported in the year they transfer. Note that if a student transfers after the first Friday in October, their *State Equivalent Grade Level Element (FD090)* will be used. They will be assigned a cohort based on the grade reported in the following year.

REINSTATED TRANSFERS

Students reported as transferring to another Ohio Public School, who subsequently are not reported as admitted to a receiving public district. These students remain in the cohort of the district from which they withdrew. This includes students that the district withdrew and the new school enrolled. At later time, the receiving district reports a Withdrawal code indicating the student was reported in error.

TRANSFERS OUT

Students reported with a Withdrawal Reason element, indicates the student transferred to another school and is continuing education outside of Ohio, at another district in Ohio, at a private school, through Home Education, through Court Order/Adjudication, or outside of the United States.

The Department also removes students who are reported as deceased from the calculation. Home Educated students who are not graduating from the district can be removed from the calculation using Withdraw Reason Transferred to Home Education. Note that students coded with a transfer code indicating they are transferring to another Ohio School District must be picked up by another school or district to be removed from the withdrawing entity's graduation rate. Students who are not reported by some other public school or district become *reinstated transfers*, which is defined above.

NON- RESIDENT SPECIAL EDUCATION COOPERATIVE STUDENT

Students with disabilities being educated via a cooperative agreement in a district other than the district of residence (or sending district).

COURT-PLACED OR PARENT-PLACED IN AN INSTITUTION STUDENT

Students who are court-placed or parent-placed in an institutional setting served by a district includes:

- Court ordered institutional placements other than foster care
- (Jail and residential treatment centers)
- Court-ordered placements into facilities defined by [Ohio Revised Code §2151.65](#) or [§2152.41](#)
- T Reporting district is educating the student
- Institutional placements that are not court ordered or foster care, such as those by parents.

AUTISM OR JON PETERSON SCHOLARSHIP STUDENT

Students participating in the [Autism Scholarship or Jon Peterson Scholarship](#).

ENGLISH LEARNERS

In Ohio schools, a student is considered an [English learner](#) if the Language Usage Survey indicates a primary or home language other than English and the student's Ohio English Language Proficiency Screener (OELPS) results indicate the student is not proficient in English. Ohio's public districts and schools are required to identify and serve students who are English learners.

Students identified and reported as English learners must take the Ohio English Language Proficiency Assessment (OELPA) or Alternate Ohio English Language Proficiency Assessment

(Alt-OELPA) annually. They are included in the [English Language Proficiency Improvement Indicator](#) calculation after they have two consecutive years of tests. The assessment has to be the same for both years (e.g., both OELPA or both Alt-OELPA) in order to calculate student growth.

Per Ohio's ESSA plan and beginning with the 2017-2018 school year's data, students who exit English learner status are included in the English learner student group for four school years after they are reclassified (exited).

A student exits English learner status when they attain an overall proficiency level of Proficient (i.e., performance level rating of four and/or five on all nonexempt OELPA domain tests or performance level ratings of three and/or four on all nonexempt modalities of the Alt-OELPA). The Department uses students' OELPA and Alt-OELPA results and their *English Learner Status Element (FD170)* to determine when a student exited English learner status. Students are included in the English learner gap closing student group calculation every year they are coded as an English learner (English Learner Status Element (FD170) = **L**, **S**, or **Y**). This occurs throughout the four years immediately following the year they exited English learner status.

Example: Student meets criteria and exits in the 2023-2024 school year. The ELA state assessment scores will be included in the English learner student group for that year and for 2024-2025, 2025-2026, 2026-2027, and 2027-2028 school years.

In Ohio's Every Student Succeeds Act (ESSA) Plan, Ohio agreed to test first-year English learners in all subjects and include them in their school and district's Gap Closing participation rate calculations for both ELA and math. English learners participate in all tests for their enrolled grade level. Students with an *English Learner Status Element (FD170)* = **L** or **S** in [EMIS](#) are included in their school and district's Gap Closing participation rate calculations for both ELA and math. Students with an *English Learner Status Element (FD170)* = **S** in EMIS is included in their school and district's Progress Component and Gap Closing growth calculations for both ELA and math

FOREIGN EXCHANGE STUDENTS

An Ohio foreign exchange student is a high school student who travels from a foreign country to live and study in Ohio, as part of an exchange student program. These students attend classes at a local high school as part of their current course of study.

CTE PARTICIPANT (PERKINS V)

A secondary student who has completed one or more workforce development courses in any CTE pathway. To be a CTE Participant, a secondary student must also have been funded in the state approved CTE workforce development course. Students who are not funded are not considered CTE Participants.

CTE CONCENTRATOR (PERKINS V)

The federal Perkins V act changed the definition of a CTE Concentrator. In preparation for the implementation of Perkins V, beginning in the 2018-2019 school year, the Department began identifying students as Concentrators under the Perkins V definition. The new definition includes students who completed two or more CTE workforce development courses within a single pathway. CTE workforce development courses of 120 hours or more count towards concentrator status. Two workforce development courses of 60 hours count as one course. Courses may be taken in one or more districts and years. To be considered a concentrator in the current year, at least one course must have been completed in that reporting year. These students may not have been identified as CTE Concentrators by a district in EMIS.

Ohio has a “once identified, always identified” rule for CTE Concentrators for accountability purposes. Once identified, students remain a CTE Concentrator for the rest of their schooling, even if they do not continue working to complete a CTE pathway. Districts report students as concentrators in the year they achieve concentrator status, and any subsequent year a course aligned to their program is completed. Programs of concentration are not reported in years that students are not active in their CTE pathway. Only one program of concentration can be reported each year.

Although districts self-report students as CTE Concentrators, it is important to understand the Ohio Department of Education and Workforce (DEW) checks the data to ensure accurate reporting. Each program of concentration has a list of aligned courses. DEW verifies the CTE program of concentration, and the courses reported for each student to ensure there is alignment in the year the concentrator status is reported. A student is not included in calculations (on the CTE report card) if there is no alignment between the program of concentration and the courses which the student completed.

Furthermore, students who achieve CTE concentrator status and are not reported by the educating entity will be derived as CTE concentrators under Perkins V. These students will be included in accountability calculations for the program in which they are derived. Districts should carefully review Concentrator reports each year to ensure accuracy of reporting.

When one or more programs of concentration are derived in EMIS and not reported by the educating district, the Department will apply the following tie-breaker rules based on the following criteria:

- Criteria A: When only one program of concentration is derived, that program of concentration will be chosen.
- Criteria B: When more than one program of concentration is derived, the Department will choose the program of concentration among those derived for the student:
 - First-the program that was reported for the student by the district in the prior year. If none of the derived programs were reported
 - then**
 - Second- The program that was reported for the student by any district in the prior year. If none of the derived programs were reported

then

- Third- The program in which students have the greatest number of aligned courses. If the student has the same number of aligned courses across the programs

then

- Fourth- The program in which the student has taken the greatest number of aligned *CTE Technical Assessments (GY) Record* (if the student has taken the same number of CTE Technical Assessments across the derived programs

then

- Fifth- The program that comes first when sorted alphabetically.

CURRENT YEAR CONCENTRATOR

A student is considered to be a concentrator in the year CTE Concentrator status is earned. This continues into any subsequent year a workforce development course aligned to the program of concentration is completed. Students can be concentrators in multiple LEA's and are included in the calculation for each district.

CTE CONCENTRATOR WHO LEFT SECONDARY EDUCATION

A CTE Concentrator Who Left Secondary Education is a secondary student who was a CTE Concentrator and is no longer enrolled in secondary education. For example, a CTE Concentrator who graduated or otherwise left high school. Students who were CTE concentrators in more than one LEA during their secondary education are only included in the follow-up file of the LEA in which they were most recently a CTE concentrator. Students who were concentrators in more than one LEA in their final year of their CTE program are included in the follow-up file of the LEA with the highest CTE FTE for the student.

Business Rules

There are business rules that apply system wide, **Where Kids Count** (WKC), and business rules specific to a single calculation. Since multiple entities can report the same student, the system-wide business rules or “filters” are designed to determine which students count at which level and entity for each measure and component.

WHERE KIDS COUNT (WKC)

The main system wide business rules are based on records effective March 31, 2024. This date was used for the first time for the 2014-15 report card. Previously, the student's status on the last day of school or date of withdrawal was used. Students will count at the receiving or educating building/district based on the following criteria:

- Students that are receiving instruction, in whole or part, from the reporting district
- Student is a resident of the district
- Unauthorized student (e.g.: Student is resident outside of Ohio)
- Non-resident student residing with grandparent
- Non-resident student in his/her senior year,

- Open-enrolled student from another Ohio district,
- Non-resident student with a parent who is a district employee,
- Foster placed student,
- Non-foster court placed student,
- Foster placed student open enrolled out to another district,
- Non-foster, non-court placed student,
- Student attending STEM district,
- Student attending community school,
- Jon Peterson Scholarship Program Participant,
- Non-resident student attending through superintendent agreement,
- Non-resident student attending under Title I public school choice,
- Student placed in Department of Youth Services (DYS) if they meet the *Full Academic Year* criteria at the building/district.

NOTE: Any students still being educated through Title I Public School Choice (How Received = W) will be included in the totals in the building and/or district at the educating district if *Full Academic Year* criteria is met.

- Students attending a community school will count at the community school if they meet the *Full Academic Year* criteria.
 - If the Community School is a Conversion Community School, the students will also be included in the sponsoring district’s accountability calculations unless the school is designated as a dropout recovery and prevention school.
 - If the Community School is a Start-Up Community School, the students will NOT be included in any traditional school district’s accountability calculations unless the community school and traditional school district have filed a “District Roll-Up of Affiliated New Start-Up Community School Performance Data FY2024” through the Office of Accountability.
- Students attending a STEM district (How Received = K) count at the STEM school for accountability. For district accountability, the student is moved to the resident district for independent STEM schools or to the educating district for STEM schools operated by a traditional school district.
 - STEM providers who direct the operations of more than one STEM school are required to receive a report card that aggregates the data for all the schools. Thus, students attending a STEM school that is part of a group of schools (overseen by a single provider) will have their data included in the accountability calculations of the provider as well as the STEM building and either the district of residence or educating district.
- Students who are sent to career-technical education via a contractual arrangement will count at the building/district of residence if they meet the *Full Academic Year* criteria. The student must attend one of these schools:
 - Joint Vocational School District (JVSD)
 - County Board of Developmental Disabilities (BDD)
 - non-public school at district expense or a state school
 - state school (OSB or OSD)

- Postsecondary Institution (College Credit Plus or Proprietary Institution program participant)

NOTE: Community school students attending a resident district career technical program count at the community school where enrolled.

- Students who have been expelled after March 31st but met all other Full Academic Year Criteria will count at the building /district level.
- Students who have been expelled before March 31st but are still receiving instruction and meet all other Full Academic Year Criteria will count at the building/district level.
- Students who have been expelled before March 31st and are not receiving education or services during the expulsion will count only at the state level. They have not met Full Academic year criteria.
- Non-resident students who are attending a special education cooperative will have a **Where Kids Count** IRN (How Received IRN) if the student meets the *Full Academic Year* criteria in the educating district.

NOTE: These students will count in the educating (receiving) school and district for the Gap Closing participation rate calculation used to adjust the final points for the Gap Closing component.

- Students placed in an institution, regardless of who placed them (court ordered or parent placed) will not count in building or district level of the following reports:
 - Achievement Component
 - Progress Component
 - Gap Closing Component except participation rate
 - They are expected to take the appropriate assessments to be included at the educating building/district level for the Gap Closing participation rate calculation.
 - Graduation Component
 - Early Literacy Component
 - College, Career, Workforce, and Military Readiness Component

NOTE: These codes are used for students who are institutionally placed, not for students who are placed in foster homes or court placed with a relative.

- If a student attend and/or takes a statewide test in a public district participating in the Autism Scholarship or Jon Peterson Scholarship, they will count at the state level for these calculations.
- English Learners (EL) who have been enrolled in U.S. schools for no more than two school years will be removed from all proficiency calculations (Gap Closing, Indicators, Performance Index Score and Early Literacy).

NOTE: These students will count at the educating district for the Gap Closing participation rate calculation used to adjust the final points for the Gap Closing component.

- These students must take the Ohio English Language Proficiency Assessment (OELPA). The scores are included in the English Language Proficiency Improvement Indicator calculation once they have two years of test scores.
- For the purpose of determining who is included in the EL student group for the various gap closing calculations, students will be included in the student group for the year they exit EL status and four years immediately following the exited year.
- Foreign exchange students who have been enrolled for less than 180 days will count at the state level for proficiency calculations. They are expected to take all assessments (assigned to their enrolled grade level) and included in the district's participation rate. Foreign exchange students can be exempted from American history and government EOC exams if they meet certain criteria. [Rule 3301-16-04 - Ohio Administrative Code | Ohio Laws](#). If a Foreign exchange student's SSID is found in a prior year and the student meets **Where Kids Count** criteria, they will count at the district/building level.
- Students who only receive special services from a district are not included in the accountability calculations for the reporting district or building.

EXTENDED WKC

When a student meets the [WKC criteria](#) above and [Extended Full Academic Year](#).

MODIFIED WKC

When a student meets the [WKC criteria](#) above and [Modified Full Academic Year](#).

STUDENT GROUP WKC

When a student meets the WKC criteria above and belong to one of the following Student Groups utilized in Gap Closing Component:

- Gifted
- Economic Disadvantaged
- Students with a Disability
- English Learners
- Black
- American Indian or Alaskan Native
- Asian/Pacific Islander/Native Hawaiian
- Hispanic or Latino
- Multi-Racial
- White

ADJUSTED GRADUATION COHORT

COHORT PLACEMENT

Students are placed in the appropriate graduation cohort based on the grade level reported in the first year reported in any public school with a grade of nine (09) or higher. Cohort placement (also called Graduating Class placement) is done annually in early October to comply with federal reporting requirements.

Students who enroll in an Ohio public school after the October deadline are assigned to their graduating class the following year.

- For example, if a student enrolls as a ninth grader on November 1, they will not be assigned to that year’s ninth grade cohort. Instead, they will be assigned to a graduating class based on the grade level reported at the beginning of the following year. If this student advances through high school at a normal pace, they will be reported with a grade of 10 in September of the following year. They will be placed in the same graduating class as if they had entered the Ohio public school earlier in their 9th grade year.

This calculation uses two different elements, *State Equivalent Grade Level Element (FD090)* and *Fiscal Year that Student Began Ninth Grade Element (FN110)*, to assign students to the correct graduating class. For students who were enrolled in an Ohio public school in the year prior to the cohort assignment, the calculation uses the *State Equivalent Grade Level Element (FD090)* to place the student in the correct graduating class.

- For example, a student with a *State Equivalent Grade Level Element (FD090) = 08* in the prior school year and 09 in the current school year, will be placed in the cohort four years (expected graduation) from the year the data was reported. The *State Equivalent Grade Level Element (FD090) = 09* will be used to drive that assignment.

On the other hand, if a student was not reported by any Ohio public school in the year prior to the assignment, the *Fiscal Year that Student Began Ninth Grade Element (FN110)* is used. The table below shows the graduating class students are assigned based on the year the district reports the student began ninth grade. Note the year reported in the element reflects the end of each school year, not the beginning. In other words, a district would use **2019** to report that a student began 9th grade in the fall of the 2018-2019 school year. Once a student is assigned a graduation cohort, it will not change, regardless of the situation.

TABLE 1: GRADUATION COHORT ASSIGNMENT BASED ON FISCAL YEAR STARTED 9TH GRADE

FISCAL YEAR STARTED NINTH GRADE ELEMENT	GRADUATING CLASS
2019	2022
2020	2023
2021	2024
2022	2025
2023	2026
2024	2027
2025	2028
2026	2029
2027	2030

FINAL ADJUSTED COHORT

Students in the final adjusted cohort includes students who were placed into the cohort (see Cohort Placement above), as well as:

- Adding students who [Transfer In](#) later in ninth grade or the next three years

AND

- Subtracting any students who [Transfer Out](#) or reported in error by the district or pass away during that same period.

NOTE: Students reported as transferring to another Ohio public school by a sending district must be reported as having been admitted to a receiving public district. Otherwise, the student will be returned to the sending district’s cohort. This includes any students that another district has reported as a Student Reported in Error. In this document, these students are referred to as [Reinstated Transfers](#).

NOTE: Students who are reported as [High School Dropouts](#) or non-graduates are not removed from the Graduation Cohort.

Graduation rates on a school or district’s report card are lagged by a year so that summer graduates can be included:

TABLE 2: COHORT TO GRADUATING CLASS

Cohort	Graduating Class
4-Year Adjusted Graduation Cohort	Prior Year Adjusted Graduation Cohort
5-Year Adjusted Graduation Cohort	Two Years Prior Adjusted Graduation Cohort
6-Year Adjusted Graduation Cohort	Three Years Prior Adjusted Graduation Cohort
7-Year Adjusted Graduation Cohort	Four Years Prior Adjusted Graduation Cohort
8-Year Adjusted Graduation Cohort	Five Years Prior Adjusted Graduation Cohort

PRIOR SCHOOL YEAR GRADUATE

Students who graduated during the prior school year, including summer graduates, regardless of the year they were expected to graduate.

STUDENT GROUP FEDERAL GRADUATION RATE

ESSA requirements have changed the way previously reported student group membership is determined and has also mandated the reporting of additional demographic student groups. As in prior years, disaggregation based on racial/ethnic groups, economic disadvantage, gender, and migrant status are reported based on the most current data available for a student. ESSA now requires that student groups for students with disabilities and English learner students are based on a student's student group membership at any time since the start of 9th grade.

ESSA has also mandated the reporting of four additional demographic student groups: military, foster, homeless, and adjudicated youth. Military and adjudicated youth student group membership are based on the student's student group membership as reported based on the most current data available for the student. Foster and homeless student group membership are based on a student's student group membership at any time since the start of the 9th grade.

RACE/ETHNICITY

- American Indian/Alaskan Native
- Asian/Pacific Islander
- Black, Non-Hispanic
- Hispanic
- Multiracial
- White, Non-Hispanic

GENDER

- Female
- Male

ECONOMICALLY DISADVANTAGED

Students are included in this student group when they are eligible to receive free or reduced-price lunch, are a resident of a household in which a member is eligible for free or reduced-price lunch, are recipients or whose guardians are known to be recipients of public assistance, or if parent or guardian income meets Title 1 requirements. To be eligible for free lunch, a student's family income must be at or below 130% of the federal poverty level. To be eligible for reduced-price lunch, a student's family income must be at or below 185% of the federal poverty level.

Note: Some districts/buildings participate in the Community Eligibility Option (CEO) of the National School Lunch Program. In these cases, schools/districts may report all students as economically disadvantaged regardless of income eligibility.

STUDENTS WITH DISABILITIES

Students are included in this student group when they are receiving special education services in accordance with an Individualized Education Program (IEP). Students participating in the Autism Scholarship and the Jon Peterson Scholarship Programs are also required to be reported as a receiving special education services. The following disability conditions are included in the students with disabilities student group:

- Multiple Disabilities (other than Deaf-Blind)
- Deaf-Blindness
- Deafness (Hearing Impairment)
- Visual Impairments
- Speech and Language Impairments
- Orthopedic Impairments
- Emotional Disturbance (SBH)
- Intellectual Disabilities (Formerly Mental Retardation, Developmentally Handicapped, or Cognitive Disabilities)
- Specific Learning Disabilities
- Autism
- Traumatic Brain Injury (TBI)
- Other Health Impaired (Major)

- Other Health Impaired (Minor)
- Developmental Delay

Students who have been members of the Students with Disabilities student group at any time since their first time in 9th grade are included in the Students with Disabilities student group for graduation rate purposes.

ENGLISH LEARNERS

Ohio defines a student who is an English learner as one who has a primary or home language other than English and needs special language assistance to effectively participate in school. Students who have been members of the English Learner student group at any time since their first time in the 9th grade are included in the English Learner student group for graduation rate purposes.

MIGRANT

Students are included in this student group when students are not older than 21 and have made a qualifying move in the preceding 36 months as a migratory agricultural worker or a migratory fisher or did so with or to join a parent/guardian or spouse who is a migratory agricultural worker or a migratory fisher. The qualifying move was due to economic necessity from one residence to another residence and from one school district to another school district.

HOMELESS

Students are included in this student group when they lack a regular and adequate night-time residence and have a primary night-time residence that includes living in a shelter or traditional housing, unsheltered (cars, parks, public spaces, temporary trailers, abandoned buildings, etc.), sharing housing with other families or individuals because of a loss of housing, economic hardship, etc., or temporarily living in hotels/motels. Students who have been members of the Homeless student group at any time since their first time in 9th grade are included in the Homeless student group for graduation rate purposes.

FOSTER

Students are included in this student group when 24-hour substitute care has been established for students placed away from their parents or guardians and for whom the child welfare agency has placement and care responsibility. This includes court-placed students with and without disabilities, as well as resident students who are court-placed within the resident district.

Students who have been members of the Foster student group at any time since their first time in 9th grade are included in the Foster student group for graduation rate purposes.

ADJUDICATED YOUTH

Students are included in this student group when they meet the following criteria:

- Court-placed students, excluding foster care and facilities defined by ORC §2151.65 or §2152.41. All court ordered institutional placements other than foster care (this

includes jails and residential treatment centers). These include students both with and without disabilities. Use for resident students who are court-placed within the resident district.

- Court-placed students, facility defined by ORC §2151.65 or §2152.41, reporting district is educating. Court-ordered placements into facilities defined by ORC §2151.65 or §2152.41 and the reporting district is educating the student.
- Students placed in institutions, non-court-ordered. All institutional placements that are not court ordered or foster care, such as those by parents. It is also used for resident students who are placed in an institution within the district of residence.
- Placed in Department of Youth Services (DYS).

MILITARY

Students are included in this student group when they are a dependent of a member of the Active Duty Forces (Army, Navy, Air Force, Marine Corps, or Coast Guard), National Guard (Army National Guard or Air National Guard) or Reserves.

CTE CONCENTRATOR

PERKINS V

Perkins V defines a Career-Technical Education Concentrator as follows: “at the secondary school level, a student served by an eligible recipient who has completed at least two courses in a single approved *career technical education* program or program of study.”

Course Completion

Completion of a CTE workforce development course is foundational in the definitions of CTE student populations under Perkins V. CTE students are considered as having completed a course when:

- They are funded in (**generated CTE FTE**) an approved CTE workforce development course (*Curriculum Code Element (CN310) = VN (for JTC only), VP, VT, or PS*).

AND

- They earned full or partial high school credit.

OR

- They were enrolled for 90% or more of the instructional hours of the course.

Note: Student grade level at the time of the course does not matter. Workforce development courses taken by middle grade students count towards concentrator status.

Calculating Scheduled Hours

A student is considered to be enrolled for 90% or more of the scheduled hours when the following calculation is greater than or equal to .90.

Numerator = (Student Course Days/Course Days Count) * (Scheduled Instructional Hour Count)

Denominator = Scheduled Instructional Hour Count Student Course Days.

The number of calendar days between the *Course Enrollment Start Date Element (GN160)* and the *Course Enrollment End Date Element (GN170)* as reported on the *Student Course (GN) Record*. Calendar days are based on the reported calendar assigned to the student. If a student has multiple *Student Standing (FS) Record/Student Attributes – Effective Date (FD) Record* combinations, then the Student Course Days will be further subdivided.

Course Days

The number of calendar days between the *Course Start Date Element (CN280)* and the *Course End Date Element (CN290)* as reported on the *Course Master (CN) Record*. Calendar days are based on the reported calendar assigned to the student.

Scheduled Instructional Hour Count

The annual instruction hours a teacher spends for the course/subject reported on the *Course Master (CN) Record* with the *Length of Scheduled Instruction Element (CN100)*.

Calculating Full or Partial Credit

A student is considered to have earned full or partial credit in a course when at least one of the following is met for the course. As reported on the *Student Course (GN) Record*:

- *High School Credit Earned Element (GN150) = Y*
- OR**
- *High School Credit Earned Element (GN150) = P*
 - and *Partial/Override Credit Element (GN152) > 0*.

Calculating the Count of Completed Courses

The Office of Career-Technical Education has defined one completed course to be calculated as:

- *Length of Scheduled Instruction Element (CN100)* must be a minimum of 120 days
- OR**
- Courses that have a *Length of Scheduled Instruction Element (CN100)* of 60 days but less than 120 days (same subject code), meet the definition of a completed course. They are added together to reach the 120 days minimum and count as one completed course.
- Courses count for a student across districts.

Only courses that meet all the conditions above may be included in a student's status of CTE Concentrator.

This calculation only applies to students who achieved concentrator status during the 2020 school year to present.

CTE CONCENTRATOR WHO LEFT SECONDARY EDUCATION CALCULATION

The population of CTE concentrators who left school, starts with any student identified as a concentrator, and enrolled in an Ohio public school in the prior year, **then**:

- Excludes any CTE Concentrator who is enrolled in the current year, as reported in district enrollment data, by the close of the **Initial Student (S) Collections** in EMIS.
- Excludes any CTE Concentrator in the following categories:
 - Withdrawn in the prior year (including summer withdrawals)
 - Transferred to Another School District Outside of Ohio
 - Transferred to a Private School (includes Ed Choice)
 - Transferred to Home Education
 - Transferred by Court Order/Adjudication
 - Transferred out of the United States,
 - Verified Medical Reasons Doctor’s authorization on file
 - Death
- Includes any CTE Concentrator (in the follow-up file) if they meet the following conditions:
 - Transferred to Another Ohio School District
 - Withdrew pursuant to Yoder vs. Wisconsin
 - Withdrew due to Truancy/Nonattendance
 - Pursued Employment/Work Permit
 - Over 18 Years of Age
 - Moved Not known to be continuing
 - Completed Course Requirements
 - Non-Attendance According to the 72-Hour Rule
 - Withdrew due to ORC §3314.26 (non-tested)
 - No Longer Eligible to be Enrolled in District
 - Completed high school graduation requirements

Students who were CTE concentrators in more than one LEA are only included in (the follow-up file) the LEA they were most recently identified. Students who were concentrators in more than one LEA in their final year of their CTE program are included in (the follow-up file) the LEA with the highest CTE FTE.

CTE ADJUSTED GRADUATION COHORT

The CTE Adjusted Graduation Cohort includes students who meet the Adjusted Graduation Cohort business rules outlined above as well as the CTE Concentrator business rules.

CHRONIC ABSENCE RATE

The Chronic Absence rate only includes students with at least 100 hours of possible attendance in the district or school (see [Student Attendance](#) technical document for additional information on this calculation). This is used for the Chronic Absenteeism Improvement Indicator of the Gap Closing Component.

TRADITIONAL PROGRESS

The Traditional Report Card Progress component utilizes the *Full Academic Year criteria* as well as the business rules set by our third-party vendor, SAS.

DPR PROGRESS

The Dropout Prevention and Recovery Progress Component does not utilize the *Full Academic Year criteria*, but instead students are included in the measure based on criteria set forth by our third-party vendor [SAS](#). Students take assessments upon entering the dropout recovery programs and again after receiving at least 84 days of instruction. Growth is measured through a gain-based approach using the two test scores (same subject) within a given year.

GAP CLOSING PARTICIPATION

The **Participation Rate** used for the purpose of adjusting the preliminary points in the Gap Closing Component is calculated based upon where the student is enrolled on a specific date of the year. It is calculated for ELA and math tests so there is no participation date for students taking only science and social studies. Understand, however, this does not mean they are not required to test. The Performance Index score uses all tests required by law, but students are included in that calculation using the [Majority of Attendance](#) rules above.

The table below can be used to determine who is expected to take the test during the 2023-2024 school year.

TABLE 3: GAP CLOSING- PARTICIPATION RATE TEST INFORMATION

Grade	Test	Participation Date
Any Grade	Taking Alternate Assessment (AASCD)	March 19
Grades 3-8	Taking ELA/Math (including the end-of-course tests below)	April 13
Any Grade	Taking fall ELA 2, Algebra I, Geometry, or Integrated Math 1 & 2	December 15
Any Grade	Taking spring ELA 2, Algebra I, Geometry, or Integrated Math 1 & 2	April 13

The Department uses the date reported along with data from the *Student Standing (FS) Record* to determine where the student was enrolled on the date in the table above.

TECHNICAL SKILL PARTICIPATION RATE

The Participation Rate used for the purpose of adjusting the preliminary points is calculated based upon the percentage of [CTE Concentrators](#) who participated in required CTE technical assessments.

STATUS KNOWN RATE

The Status Known Rate used for the purpose of adjusting the preliminary points is calculated based on the percentage of [CTE Concentrators Who Left Secondary Education](#) the previous year.

The tables below indicate the inclusion criteria.

Student Examples

GRADES KG-6TH

- Student A is enrolled in District one at Elementary one in the 4th Grade, from the first day of school until the last day of school and took the Alternate Assessment.
- Student B is enrolled in District one at Elementary one on the first day of school in 5th grade, then was accelerated to the 6th grade moving to middle school building on January 4th until the last day of school.
- Student C lives within the boundaries of Elementary two but attends the Special Education Coop in Elementary one in the 2nd Grade. He has attended the program for the last two years. The district has not reported an Accountability IRN for the student. A Reading Diagnostic score was reported the prior year in 1st Grade as “not on track”.
- Student D is enrolled in District two but is sent to District one’s Special Education Coop at Elementary one starting in 5th Grade on the first day of school until the last day.
- Student E is court placed into a foster home for two weeks during the ELA testing window. Student lives in District one’s boundaries after leaving District two in the 6th Grade.
- Student F is enrolled from October 1 through March 1st in Elementary one as a 3rd grade student and took the 3rd grade Alternate Assessment.
- Student G is enrolled in Elementary one as a 3rd grade student from the start of the year to the end of the year and scored “not on track “for the 3rd Grade Reading diagnostic in 2nd and 3rd grades. The student was promoted to 4th grade.

GRADES 7-12TH AND BEYOND

- Student H is enrolled in a Dropout Recovery High School in the 12th grade taking several courses in a CTE pathway from Oct 31st to the end of the year. The student took the fall and spring Math and Reading STAR Assessment.
- Student I is enrolled in District one at a high school Building in 9th Grade from September 1st through the end of the year, taking their first CTE course in AG Pathway.
- Student J graduated from District one last year and was a CTE Concentrator.
- Student K is enrolled in District one at a joint vocational school in 12th Grade from the first day until the last day of the year as a Concentrator in the Welding program.
- Student L is enrolled in District one at the high school building in the 11th grade from the beginning of the year to the end of the year, taking College Credit Plus courses full time at the local community college.
- Student M is enrolled in District two but has open-enrollment to District one at the middle school building for the entire year. Student is accelerated in 8th grade Math, taking Algebra I.
- Student N was enrolled in the 11th grade last year at District one but dropped out in April of the prior year. The student was a concentrator in AG at the high school.

Appendix A Denominator Inclusion Criteria

WHERE KIDS COUNT

Students will count at the **educating building/district** for the following Measures/Indicators:

- Performance Index used in the Achievement Component and the Gap Closing Component of the Traditional Report Card.
- Proficiency in Third Grade Reading for the Early Literacy Component of the Traditional Report Card.
- Improving K-3 Literacy measures for the Early Literacy Component of the Traditional Report Card.
- High School Test Passage Rate for the Achievement Component of the DPR Report Card.

IF the students are reported in the Education Management Information System (EMIS) with the following:

Majority of Attendance IRN Element (FN220) = educating building/district IRN (Students are enrolled in the educating district for a [full academic year \(FAY\)](#) **AND** Student generates base Full Time Equivalency (FTE) for dates included in FAY- See EMIS Validation and Report Explanation on [FTE Reports](#) for more detailed information

IF the students in the Education Management Information System (EMIS) are included in the following for the LEA:

(CTGR-523) 2023 – CTE Grad Cohort - 5th Year Status

CHRONIC ABSENCE RATE

Students will count at the **educating district** for the following Measures/Indicators:

- Chronic Absence Rate in the Chronic Absenteeism Indicator of the Traditional Gap Closing Component of the Traditional Report Card

IF the student is reported in the Education Management Information System (EMIS) with the following:

Sum of School Year Attendance Hours (FS320) AND School Year Excused Absence Hours (FS330) AND School Year Unexcused Absence Hours (FS340) >=100 hours

NOTE: For *How Received Element (FS180) = K*, the student counts at the STEM school. For district accountability, the student is moved from the STEM school to the student's resident district for independent STEM schools or to the educating district for STEM schools operated by a traditional school district.

DPR PROGRESS

Students will count at the **educating district** for the following Measures/Indicators:

- English Language Arts Value-Added in the Progress Component on the DPR Report Card
- Mathematics Value-Added in the Progress Component on the DPR Report Card

IF the student is reported in the Education Management Information System (EMIS) with the following:

STAR assessment FA Record with *Assessment type code (FA060) = GD AND Assessment Area Code (FA205) = M AND Score (FA240) is valid AND Test Dates (FA210) <20XX08 AND Test Day of*

the Month (FA212) <= 01 AND Second STAR assessment FA Record with Assessment type code (FA060) = GD AND Assessment Area Code (FA205) = M AND Score (FA240) is valid AND Test Dates (FA210) <13 weeks from previous test record

OR

STAR assessment FA Record with Assessment type code (FA060) = GD AND Assessment Area Code (FA205) = R AND Score (FA240) is valid AND Test Dates (FA210) <20XX08 AND Test Day of the Month (FA212) <= 01 AND Second STAR assessment FA Record with Assessment type code (FA060) = GD AND Assessment Area Code (FA205) = R AND Score (FA240) is valid AND Test Dates (FA210) <13 weeks from previous test record

GAP CLOSING PARTICIPATION RATE

Students will count at the **educating district** for the following Measures/Indicators:

- English Language Arts and Mathematics Participation Rate used to adjust the final points for the Gap Closing component on the Traditional Report Card
- English Language Arts and Mathematics Participation Rate used to adjust the final points for the Gap Closing component on the DPR Report Card

IF the student is reported in the Education Management Information System (EMIS) with the following:

Student generates base FTE- See EMIS Validation and Reports Explanation on [FTE](#) for more detailed information **AND** Enrolled on December 15th and required to take the following assessments: Standard end of course for English language arts II, and Algebra I, Geometry, Integrated Mathematics I or Integrated Mathematic II in the Fall (no Spring Assessments) **OR** Enrolled on March 19th and required to take the following assessments: Alternate Assessments **OR** Enrolled on April 13th and required to take the following assessments: Grade 3-8 English Language Arts and Mathematics **OR** Standard end of course exams for English language arts II, and Algebra I, Geometry, Mathematics I or Mathematics II

OR

District Relationship Element (FS140) = 1 AND Sent Reason Element (FS200 or FS230) = EX or NP AND Sent Reason Percent of Time (FS220 or FS250) >0 AND Enrolled on December 15th and required to take the following assessments: Standard end of course for English language arts II, and Algebra I, Geometry, Integrated Mathematics I or Integrated Mathematic II in the Fall (no Spring Assessments) OR Enrolled on March 19th and required to take the following assessments: Alternate Assessments OR Enrolled on April 13th and required to take the following assessments: Grade 3-8 English Language Arts and Mathematics OR Standard end of course exams for English language arts II, and Algebra I, Geometry, Mathematics I or Mathematics II

OR

Sent Reason Element (FS200 or FS230) = CE, CI, NI, PI, or PS **AND** Enrolled on December 15th and required to take the following assessments: Standard end of course for English language arts II, and Algebra I, Geometry, Integrated Mathematics I or Integrated Mathematic II in the Fall (no Spring Assessments) **OR** Enrolled on March 19th and required to take the following assessments: Alternate Assessments **OR** Enrolled on April 13th and required to take the following assessments: Grade 3-8 English Language Arts and Mathematics **OR** Standard end of course exams for English language arts II, and Algebra I, Geometry, Mathematics I or Mathematics II

NOTE: Whether a student is expelled for the indicated dates, if they are being educated or receiving services for the duration of the expulsion, then they have met criteria and are included in the denominator.

TECHNICAL SKILLS PARTICIPATION

Students will count at the **Career Technical Planning District** (including the students in a member district CTE Pathways) for the following Measures/Indicators:

- Technical Skills Participation Rate calculation used to adjust the final points for the Technical Skills Attainment Measure in the CTPD Achievement Component on the CTPD Report Card

IF the student is reported in the Education Management Information System (EMIS) with the following:

Program of Concentration Element (FN290) ≠ **, **H0, M2, M3, or T6** **AND** Completed an aligned workforce development course in the reporting LEA.

OR

The Department has derived a *Program of Concentration Element (FN290)* ≠ **, **H0, M2, M3, or T6** **AND** Completed an aligned workforce development course in the reporting LEA.

STATUS KNOWN RATE

Students will count at the **Career Technical Planning District** (including the students in a member district CTE Pathways) for the following Measures/Indicators:

- Status Known Rate calculation used to adjust the final points for the Post-Program Placement Measure in the Post-Program Outcomes Component on the CTPD Report Card

IF the student is report in the Education Management Information System (EMIS) with the following:

The population of withdrawn CTE concentrators includes any student who was a concentrator and enrolled in an Ohio public school in the prior year. **Excludes** any CTE Concentrator who is enrolled in the current year. Student generates base FTE- See EMIS Validation and Reports Explanation on [FTE](#) for more detailed information by the close of the **Initial Student (S) Collections** **Excludes** any CTE Concentrator who was withdrawn in the prior year (including summer withdrawals) with *Withdraw Reason Element (FS100)* = **40, 42, 43, 45, 46, 51, or 52**

Includes any students withdrawn with *Withdraw Reason Element (FS100)* = **41, 47, 71, 72, 73, 74, 75, 76, 77, 79, or 99 AND Other Follow-up Status (FW310) ≠ D**
